## DETAILED ACTION

### *Drawings*

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 20-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP (JP 10011490 A).

Regarding claims 20-22, JP discloses the apparatus for managing CAD data, including a two-dimensional design plane 1, a three-dimensional design space 3, a database 2, therefor it would be inherent property of apparatus of JP for method of managing CAD data.

Regarding claims 23-24, as disclosed above by JP, the database is a computer-readable storage medium (Title and Abstract).

***Allowable Subject Matter***

4. Claims 1-19 have been allowed.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. JP 06348789 A discloses related art.
